

IAP- AUS Online Educational Master Class details

Month and Year	Date and Time	Presenter	Title of Master Class
September 2022	September 15 th – 6:00 pm	Clinical Professor M. Priyanthi Kumarasinghe	“Reporting on gastrointestinal cancer resections – what matters” A discussion on common problems in routine reporting.
October 2022	October	2022 World Congress	
November 2022	November 28 th – 5:00 pm	Tristan Rutland & Zaid Househ	TWITTER for L Platers “A path through the chaos; how to make the most of (path)TWITTER”
December 2022	December 14 th – 5:30 pm	Prof Gelareh Farshid	“Update on triple negative breast cancer” In the context of intense investigation and updated treatment options for the management of TNBC, pathologist have a greater role in evaluating these tumours
January 2023	No Master Class		
February 2023	February 15 th - 5:30 pm	A/Professor Andrew Dettrick	“The skin cancer epidemic” Practical pathology update on keratinocyte cancer
March 2023	March 9 th - 5:00 pm	Adj Prof Fiona Bonar	“Approach to macroscopic management of orthopaedic / bone specimens” Gross examination of bone specimens forms an intrinsic and vital role in accurate diagnosis. This talk will address the optimal approach and provide background rational for the findings.
April 2023	April 20 th – 5:00 pm	Dr Edwina Duhig	“Ancillary testing in lung pathology” In lung pathology, when should I attempt histochemistry, immunohistochemistry or molecular and how far should I go?
May	No Master Class	ASM 2023	No Master Class

June 2023	June 21 st – 5:00 pm	Heather Hibberd	“Mistakes and what to do when you make one.” This session will look at the common Mistakes we see in Pathology and what you should do when you realise you have made one.
July 2023	July 26 th – 5:00 pm	A/Professor Kais Kasem	“Creating Engaging Online Content for Your Students and Registrars” Kais will take you on a journey illustrating simple tools you can use to create engaging interactive online educational contents for your students and Registrars that will take their educational experience to the next level.
August 2023	August 21 st – 5:00 pm	A/Professor Kenneth Lee	“An approach to diagnosing common lymphomas” This is a talk on the approach on how to diagnose common lymphomas and the use of ancillary tests to help reach the final diagnosis.
September 2023	September 18 th - 5:00 pm	Professor Beena Kumar	“Molecular techniques have revolutionized our approach to brain tumours – case studies and lessons learnt.” Advances in neuropathology.
October 2023 Online Coaching Seminar Webinar hosted by Christina Arnold, MD	October 24 th - 1:30 pm	Christina Arnold, MD, Expert Certified Coach & Physician Mom	Happy in Medicine Group Coaching Session Whether you attended the Happy in Medicine coaching at IAP-Brisbane May 2023 or not, join this session to learn how coaching can help you feel better at work, at home, and in your relationships. No topic is off limits. Come with any question and leave with actionable tools to help life be <i>easier</i> TODAY.
November 2023	November 21 st – 5:00 pm	A/Professor Catriona McKenzie	“A pattern based approach to medical liver biopsies”. This will be an interactive lecture detailing a pragmatic approach to medical liver biopsies with case based examples. An online link will be available for previewing the cases.
December 2023	<i>No Master Class</i>		
January 2024	<i>No Master Class</i>		

February 2024	February 27 th - 5pm	A/Professor Elizabeth Salisbury	"A modern approach to assessing, diagnosing and reporting serous effusion cytology"
